

Tameside Council Adult Learning

working in partnership with NHS Tameside and Glossop

Interested in learning to use a computer to access your GP electronic health records?

6 week course for the beginner starts:

May / June

at Hyde Library

Date and Time to be confirmed

£10 (unless in receipt of a means tested benefit)

Hyde Library Computer Suite

Learn how to:

- use a keyboard and mouse
- access the internet
- navigate trusted websites
- book appointments online
- order repeat prescriptions online
- access your medical records online
- set up an email account and send emails

Benefits to patients accessing their GP held Health Record:

- active role in your own healthcare
- order repeat prescription via the internet
- check results or letters
- allow access to your records to doctors in other countries (you may be taken ill)
- book, view and cancel appointments
- check results of tests before treatment is given if you receive care at home
- monitor a relative's care who is in a nursing home
- check information about prescribed medication and how to take it
